Sell Gift Cards online so that your customers can give them to friends, family or employees.

eGift

Digitization

“It attracts new clients by reference, allowing personal or corporate Gift Cards to be given away. Offer online payments and attract customers you didn't plan to reach”.

Solutions

- ✓ “Digitize purchases in your business”
- ✓ “New revenue channel”
- ✓ “Attract more referral customers”

QR

“Manage your QR card instantly, notify when a dish is out of stock, lower your costs by avoiding printing physical cards and increase your sales with the use of photos”.

Forget about

- ❌ “Do you constantly need to reprint your menu to change dishes or prices?”
- ❌ “Are dishes that are not on the menu ordered?”
- ❌ “Don't you have a professional QR?”

Solution

- ✅ “100% self-manageable QR letter”.
- ✅ “Inspire your customers to order certain dishes”.
- ✅ “Take orders directly from the table”.

“Manage the reservations of your tables without answering messages or calls. **100% online**”.

Booking

Digitization

“With a reservation system you can avoid overlapping shifts and automate the booking process. In addition, you can have a record of your customers and analyze your database to offer discounts or promotions.”.

Forget about

- ❌ “Do you lose a lot of operational time to take reservations?”.
- ❌ “Are your reservations overlapping?”.
- ❌ You do not have booking statistics

Solutions

- ✅ “Save management time”.
- ✅ “Automation of taking reservations”.

Feedback

Digitization

“Offer your clients a short and intuitive form to obtain feedback on service, cleanliness, dishes and much more.”

Solutions

- ✔ “Get feedback from your customers”.
- ✔ “Learn from your customers”.
- ✔ “continuous improvement”.
- ✔ Make your customers loyal and enrich your database

“More important than a happy customer is knowing the reason why a customer was dissatisfied. Get to know your customers and give them a **better experience** every day”.

-30% savings on commissions

“Don't rely on a third-party app to generate online sales. Today you have your own application for Android and iOS and forget about fees”.

App de delivery & take away

iOS & Android App

Forget about

- ❌ “Do you have problems taking management orders?”.
- ❌ “Can't you track sales?”.
- ❌ “Does it take you a long time to attend by phone/networks?”.
- ❌ “Do you pay high commissions for sales on platforms like Uber Eats?”.

Solutions

- ✅ “Take orders automatically”.
- ✅ “Notify your customers of the status of the order in real-time”.
- ✅ “Offer discounts and promotions”.
- ✅ “Analysis of statistics and trends”.
- ✅ “Embedded payments”.
